Missing Details

The screenshot displays the FACs Project Diary application. At the top is a ribbon menu with tabs for View, Clipboard, Sort & Filter, Records, Find, and Window. Below the ribbon, the main form is titled 'PROJECT DIARY' with a sub-header 'F.A.P. NO. STP-092-1(24)'. Fields for 'DATE:' and 'INSPECTOR:' are present, both with redacted cyan-colored input areas. A 'WEATHER:' dropdown menu is also visible. A horizontal menu bar contains several options: 'OTHER MEASUREMENTS', 'OTHER ACTIVITIES', 'Previous Diaries for Inspector', 'All Diaries', and 'COPY DIARY'. Below this, a secondary menu bar includes 'DAY'S ACTIVITIES/MEASUREMENTS', 'PERSONNEL' (highlighted with a yellow smiley face icon), 'EQUIPMENT(S)', and 'PROBLEMS/REMARKS'. The 'PERSONNEL' section is a large, empty white rectangular area with a vertical scrollbar on the right. At the bottom of the form, there is a section for 'Inspector' with a dropdown menu and a red question mark icon, followed by a checkbox labeled 'CHECK IF DIARY IS COMPLETED'. The footer of the application shows 'Record: 1 of 1', 'No Filter', a search bar, and 'Form View' status. The bottom right corner includes a 'Num Lock' indicator and icons for a list, a grid, and a print function.

Technology Can Help ...

- Prevent delays caused by duplicate data entry, inaccurate or missing information
- Provide the field team access to key project data from the field
- Instantly find project information
- Automatically generate key reports/invoices to submit for payment
- Reduce delays caused by lack of notifications
- Stop time being wasted transcribing or entering data twice
- Eliminate the need to manage daily Excel based Logs
- Provide cross project reports to show you key metrics your team never had access to before
