

About Us

DRMcNatty & Associates, Inc. is a complete professional services provider offering consulting services for Project Management, Program Management, and Technology. With over 30 years of success in the delivery of capital construction programs, we have amassed a wealth of experience in project management and technology services including project management office support.

We have spent over 30 years developing an incredibly diverse team of experienced professionals. Our team can help with everything from cost controls to risk monitoring, and we do it all while helping you retain control of scope, costs, and scheduling. DRMcNatty has provided project controls and project management support on programs totaling in excess of \$1 Trillion dollars. Leverage our knowledge and get to the next step.

5 Reasons We Are Your Top Choice

1

From scoping through to delivery and user adoption, DRMcNatty's professional services will ensure your project is successful. Our experience delivering projects of all sizes means that we can help you plan, coordinate and execute in the most cost-effective way, whether you need help with one specific part of a project or a complex program of work. Our approach to collaboration means we can provide everything from a complete PMO service to the provision of expert staff to augment your local workforce.

2

We are market leaders in technology services, with extensive experience in data configuration, software implementation, database integration, machine learning, and software development services. As recognized leaders in the design and implementation of Oracle Primavera software-based project controls systems, our knowledgeable team can help implement and support Primavera software on a range of large capital construction programs.

3

Our expertise in Managed Services means we can help clients of all sizes deploy their business-critical systems in the cloud. We offer world-class, cost-effective, and robust hosting solutions accessible from anywhere in the world, backed up by technicians who are always on call to provide support and guidance. Our affordable services can scale from small three-person teams to multinational joint-venture programs with thousands of users.

4

As a VA Certified Federal Service Disabled Veteran Owned Small Business (SDVOSB), a State of California Small Business and Disabled Veteran Business Enterprise (SB/DVBE), and a State of New York Service Disabled Veteran Owned Business (SDVOB), we can help you fulfill the mandatory DVBE diversity requirement for companies doing business with Federal, State of New York and State of California agencies. Entering into a partnership with DRMcNatty as a subcontractor or prime vendor means that you gain access to industry-leading expertise while benefiting from the advantages that come with working with a DVBE partner. Our services and support can help your team meet your contract goals on State of CA, State of NY, and Federal projects.

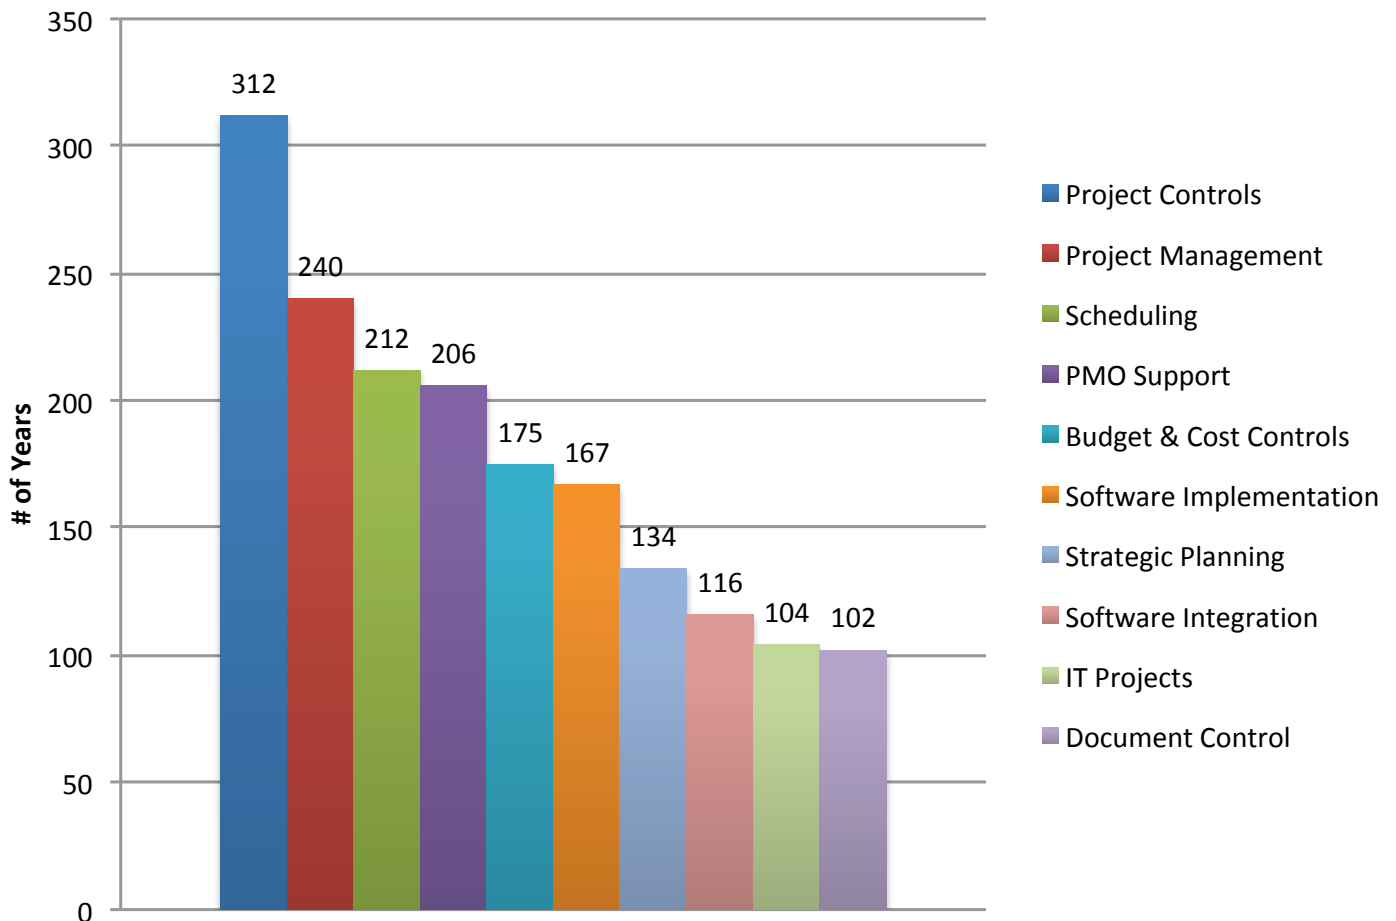

5

DRMcNatty is a trusted name in the industry. Founded in 1989, our team is made up of consultants who work together to provide an exceptional start-to-finish support service for all of your professional services and project management needs. Our Principal and senior consultants have over 100 years of cumulative experience in Project Management and the running of Project Management Offices, as well as in a range of Technology and Data Services. We pride ourselves on our extensive industry experience in infrastructure projects of all sizes, from small businesses to large infrastructure utilities, and are well-used to combining technical know-how with best practice project management techniques to achieve success.

Leverage Our Knowledge

DRMcNatty brings expert insight to every client, program, and project we manage. Our careful planning, rigorous research and strong leadership allow you to focus every resource on achieving project success. From developing the initial scope all the way through project closeout, our decades of experience mean you're in safe hands.

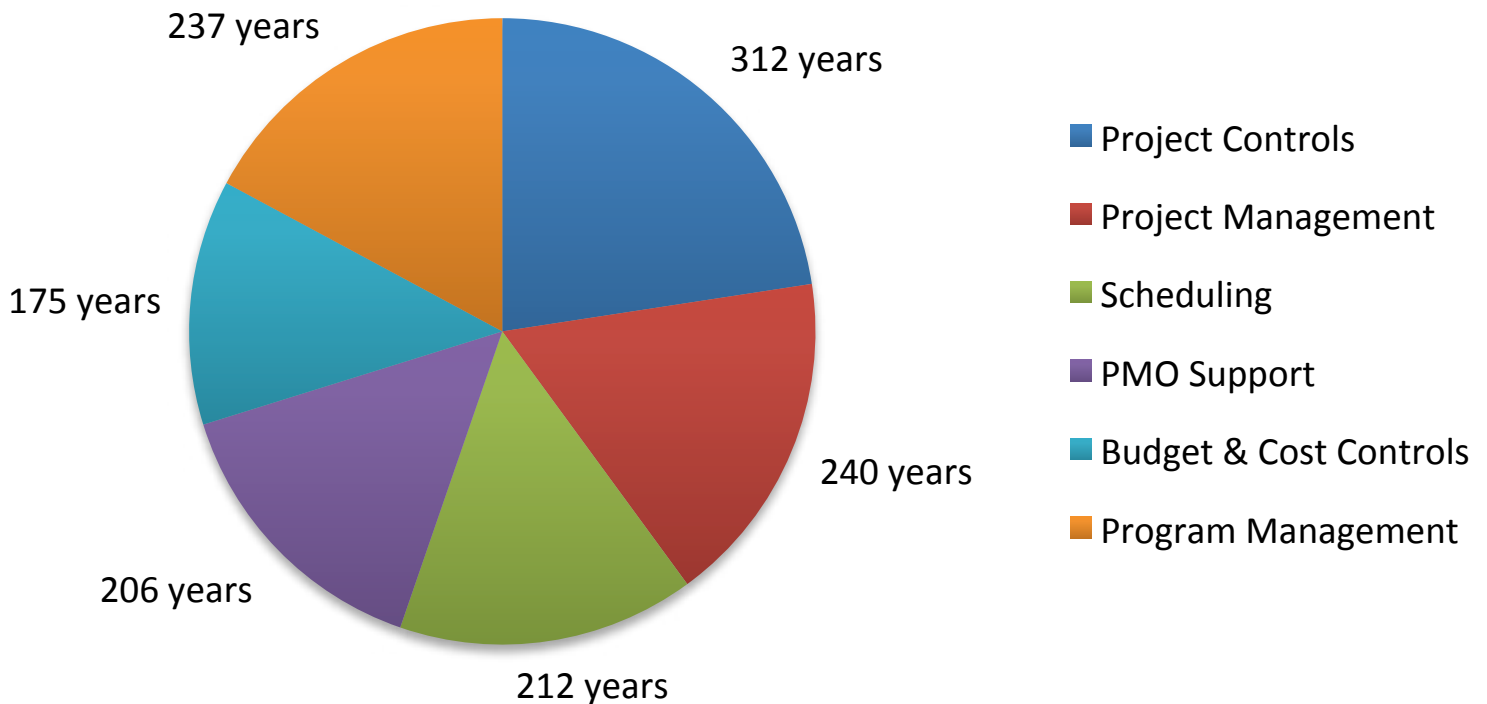

Combined Years Experience

Experts are made from Experience

Our experienced team of consultants has worked in a wide range of industries, from Utilities to IT and Transportation to Government. We are continually learning and evolving, incorporating the latest thought leadership into our own practice and staying on the cutting edge of leading technologies. We know what will work for you.

Top Experience in Years

Execute Projects Like a Pro
