ORACLE PRIMAVERA P6 PROFESSIONAL ADVANCED COURSE SYLLABUS

COURSE DESCRIPTION: This two-day course provides in-depth resource and cost management training in Primavera's client/server-based solution. Building off skills learned in the basic course, the advanced course covers advanced topics in managing resource allocation, future-period bucket planning, resource leveling, earned value analysis, updating baselines and top-down budgeting. Hands-on workshops provide an opportunity to apply new skills and functionality.

2 day class only $1600

LEARNING OUTCOMES:
Create resources and roles across the enterprise
Use advanced functionality to assess resource allocation
Tailor resource allocation via bucket planning and leveling
Modify projects using advanced functionality
Analyze projects using earned value
Effectively manage risks and issues
View Primavera data in other applications

P6 ADVANCED COURSE OUTLINE:
DAY ONE:
Resource and Role Analysis
Resource Assignments Window
Manually Allocate Resources
Bucket Planning
Leveling Resources
Storing Financial Periods

DAY TWO:
Duration Types
Calculating Percent Complete
Earned Value Analysis
Advanced Scheduling
Timescaled Logic Diagrams
Managing Multiple Projects

NOTE: All attendees will have access to the Primavera P6 Environment for two (2) weeks upon completion of training. This will allow additional practice and time to enhance the skills learned during the training.
