Abstract – What's New in P6 r8.4?

- Oracle is introducing P6 release 8.4 at Open World 2014. In the June OPSIG Roadmap presentation they outlined a long list of enhancements including P6/Unifier integration enhancements so you can actually manage costs in Unifier and schedule in P6 and have them synchronize. Team Member is being re-written and combined with Progress Reporter (Timesheets) to provide a single web environment for updating. Various enhancements to Visualizer will be explored as well as the replacement of Oracle XE database with SQL Lite for local users. We'll have the full EPPM, Pro and Team Member systems deployed for a hands-on view of the changes....

What's New in P6 8.4?

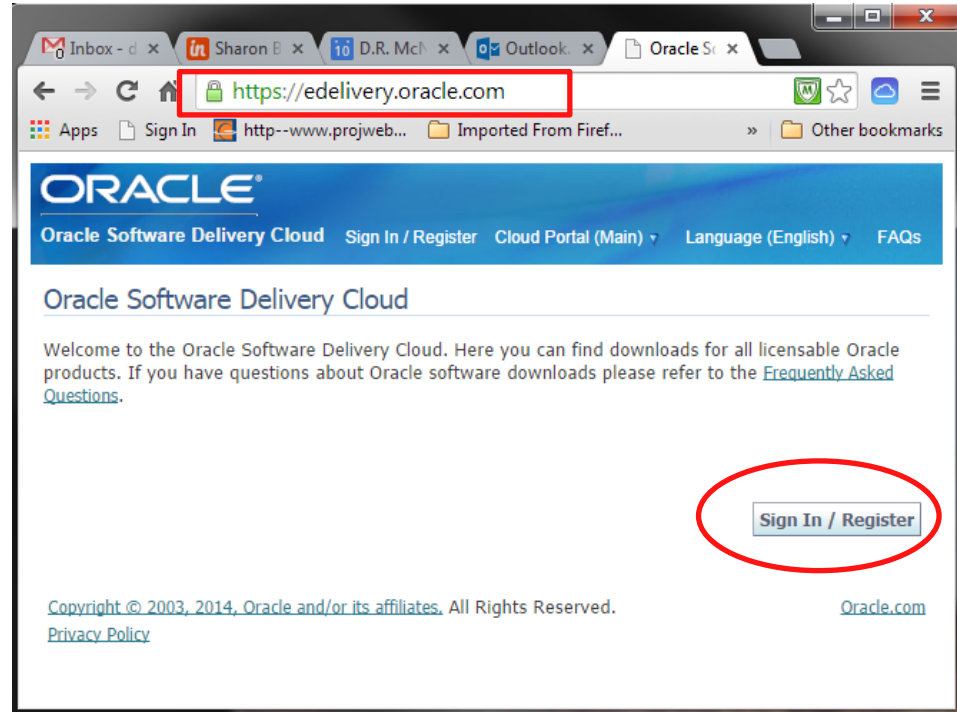

Overview

- Upgrade software available at edelivery.oracle.com as of Sept 30.
- Anyone with current 8.x maintenance can download and upgrade.
- P6 Pro changes include a new local database and Visualizer enhancements.
- P6 EPPM (web) has enhanced integration with Primavera Unifier, Primavera Prime and a few functional changes.
- P6 Team Member has been re-written to incorporate timesheet collection and now replaces P6 Progress Reporter on the price list.
 - This means that Team Member is now it's own license and can be purchased separate from the full P6 EPPM at less than full P6 license cost.

What's New in P6 8.4?

Installing the software...

- I installed P6 Pro 8.4 over my existing Pro 8.3.
 - My existing deployment included one Oracle Express database which I can continue to use with 8.4 and four MS SQL databases.
 - All existing databases had to be migrated to 8.4 using the “dbsetup.bat” utility choosing “upgrade a database” option.
- The November tech webinar will cover working with databases in P6 Pro 8.4.
 - You can access the DRM tech memo for 8.3
http://www.drmcnatty.com/wordpress/wp-content/uploads/2013/09/April_2013InstallingandManaging-Databases.pdf
